WHAT'S INSIDE

Everything your HR team needs

Six connected modules that share the same employee master data, so a change in one place is reflected everywhere instantly.

Employee records

Full master data with photos, documents, branches, departments, designations and reporting lines.

Attendance & time

Daily clock-in and clock-out, worked hours, late and remote status, with searchable paginated logs.

Payroll engine

Basic pay, allowances and deductions calculated per run, approved in-app and exported as PDF payslips.

Leave management

Entitlements, balances and approval workflows with a clear audit history for every request.

Reports & dashboards

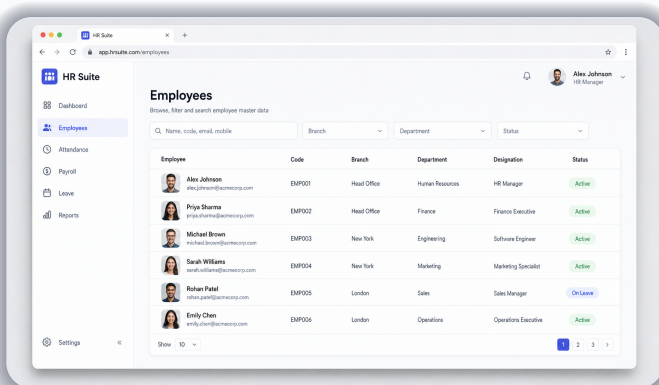

Headcount, attendance trends and payroll cost breakdowns, print-ready as branded PDF dashboards.

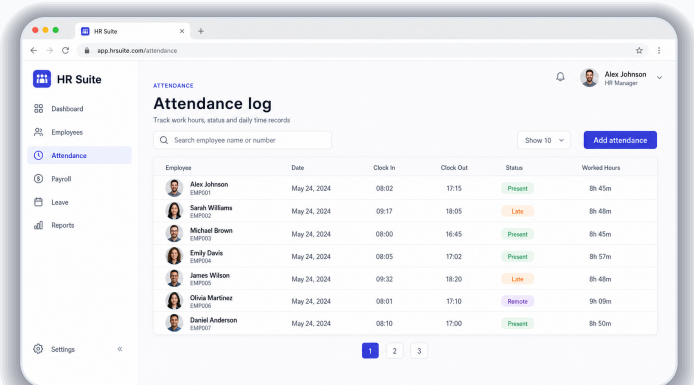

Employee self-service

Staff view their own profile, leave balance, attendance and payslips from any device, cutting HR queries.

PRODUCT TOUR

Employee directory — filter by branch, department and status

Attendance log — live status, worked hours, pagination

One shared employee record across every module

Hire once and the same record drives attendance, payroll, leave and self-service.

From paperwork to one clean system

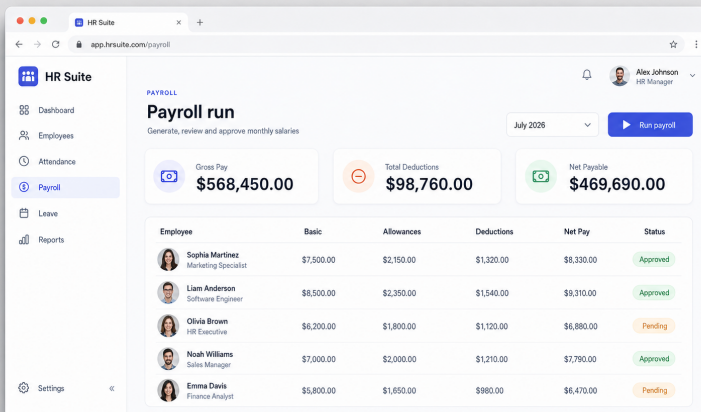

BEFORE

- Employee data spread across Excel files
- Attendance retyped from paper sheets
- Payroll takes days and breaks easily
- Staff email HR for every payslip
- No reliable audit trail

WITH HR SUITE

- ✓ Single employee master record
- ✓ Attendance captured and searchable
- ✓ Payroll runs and approves in minutes
- ✓ Self-service payslips and leave
- ✓ Every change logged and traceable

HOW WE GET YOU LIVE

01 Discovery

We map your branches, departments, designations, pay components and approval rules.

02 Setup & data migration

Existing employee, attendance and salary data is imported, validated and reconciled.

03 Training & go-live

HR staff and managers are trained, then supported through the first full payroll cycle.
